Volodymyr Linnyk

Data Analyst

Result-oriented Data Analyst proficient in analyzing intricate data sets to extract crucial business insights. Adept at collecting, cleaning, and pre-processing data using advanced statistical methods. Experienced in exploratory data analysis, predictive modeling, and data visualization. Collaborative team player, eager to engage with cross-functional teams to deliver actionable, data-driven solutions. Actively seeking opportunities to contribute valuable data-driven insights and drive business growth.

PROJECT EXPERIENCE

- [GOOGLE Sheets](#) - Advanced analysis and visualization functions data: regression, forecasting and graphs;
- [Looker Studio](#) - creating and formatting visualizations using various Looker Studio tools to give the data a certain look and style;
- [SQL](#) - basic and some advanced skills are demonstrated;
- [BigQuery](#) - demonstrated ability to work with new nested structures in BigQuery, as well as the use of appropriate SQL functions and operators to work with them;
- [Tableau](#) - creation of interactive and dynamic visual representations of data

WORK EXPERIENCE

Self Employed

- Oct 2019 - Present

My entrepreneurial pursuits involved spearheading the development of a business project focused on providing "outsourcing of unskilled personnel (laborers, seasonal workers, loaders, etc.)".

However, amidst the onset of war, the project's operations substantially declined.

Currently exploring new opportunities for professional growth.

Head of Sales Department

- ANFOL LTD / Vinnytsia, Ukraine
- Apr 2016 - Sept 2019

Functions

- Research of perspective directions in the segment "polymer packaging for food products";
- Participation in the development of new company product;
- Ensuring the capacity utilization.

Achievements

- Monthly implementation of the sales plan;
- Creation of the database of customers ordering new products from "Anfol";
- Full load of production capacities, based on the existing staffing schedule.

Head of Sales Department

- SAV-Service.MOVA LTD / Vinnytsia, Ukraine
- Jul 2014 - Feb 2016

Achievements

- Increased active customer database;
- Formation of launching the focus team of sales representatives;
- Execution of planned targets for qualitative and quantitative distribution;
- Sales plans were systematically implemented
